Full Stack Web Developer

Energetic professional with a passion for people, learning and new experiences. Transitioning into full stack web development. Goal-and-detail oriented, adaptable, self-motivated, humorous, and proud of my work. Excited to problem solve, develop apps, mend bugs, and improve services to users across the web. Looking for an organization that will challenge me while encouraging my personal and professional growth.

Technical Skills

HTML5/CSS3	JavaScript	node.js	MySQL	Git
MongoDB	Bootstrap4	express.js	jQuery	sequelize
